

LANDON DAHLE

1689 East Centaurus Way ♦ Washington, UT 84780 ♦ (972) 363-4036 ♦ contact@landondahle.com

OBJECTIVE

Seeking a full-time role supporting innovative workflows in biotechnology, with the goal of contributing to healthcare innovation and research. Dedicated to scaling scientific systems that empower human life through process automation, intelligent tooling, and the pursuit of technologies that augment science and self.

EDUCATION

Texas A&M University, College Station, Texas

May 2025

Bachelors of Science in Biomedical Engineering, Minor in Engineering Entrepreneurship,

GPA: 3.71

RELEVANT EXPERIENCE

Texas A&M University

August 2022 – May 2025

Research Assistant – Haridas Lab (June 2024 – May 2025)

- Authored and implemented a detailed standard operating protocol on mammalian cell culturing and cytotoxicity testing for adhesives, translated coursework and experience into best practices.
- Led experimentation and quantitative imaging analysis to evaluate incision quality and thermal spread of novel fetoscopic tools; identified key design thresholds for surgical viability.

Research Assistant – Gaharwar Lab (January 2022 – May 2022, August 2022 – May 2023)

- Constructed a low-cost bioprinter and temperature regulation enclosure from an Ender 3 consumer printer, empowering hydrogel experimentation at <10% the cost of commercial systems.
- Collaborated cross-functionally with biomedical engineers and materials scientists to align and verify hardware performance with polymer chemistry constraints; utilized rheological studies to predict behaviors.

Indian Institute of Technology Gandhinagar

May 2023 – August 2023

Research Assistant – Bhatia Lab (internship)

- Cultured mammalian cells (L929 fibroblasts and MDA-MB-231 breast cancer cells) under sterile conditions across multi-week in vitro experiments, mastering aseptic workflows and long-term viability tracking.
- Synthesized tetrahedral DNA nanocages for targeted delivery of doxorubicin, validating structures via dynamic light scattering and atomic force microscopy (AFM) to confirm shape formation and yield.

The Medicine Shoppe Sherman

October 2020 – August 2021, May 2022 – August 2022

Certified Pharmacy Technician (CPhT)

- Compounded custom medications with $\pm 5\mu\text{g}$ accuracy through weight-based dosing and validated calculations, ensuring patient safety and regulatory compliance under pharmacist oversight.
- Managed inventory of 300+ medications and DEA-regulated substances, processing hundreds of prescriptions daily with high throughput and minimal error to maintain seamless operations.

LEADERSHIP

Aggie Climbing Club

September 2022 – May 2025

Founder and President

- Founded and scaled Texas A&M's first recreational climbing club, navigating a two-year negotiation with the Outdoor Adventures department to establish institutional support, legal coverage, and operational legitimacy for 400+ student members.

SKILLS

Soft Skills: Workflow Optimization, Situational Prioritization, Cross-functional and Cross-cultural

Communication, Attention to Detail, Organizational Rigor, Process Documentation & Knowledge Transfer

Hard Skills: Glassware Preparation, Sterility assurance & aseptic technique, Media and reagent preparation, Cold Chain Handling, Inventory Management, Hazardous Waste Disposal (Autoclave Utilization), Technical Writing, Python (Data Analysis and Visualization), Microscopy (General, AFM, Confocal), Flow Cytometry
